impurities, pollens and dustmites.

THIS MODEL CAN BE CONNECTED TO STEAM DISINFECTOR
It is possible to connect Steam Disinfector accessory for sanitizing surfaces and fabrics and reducing the bacterial, fungal and viral load.

ACCESSORIES

Universal brush with 3 inserts

This brush is suggested for large surfaces, ceramic tiled floors, marble, parquet, carpets etc, using the most appropriate frame.

Steam+vacuum nozzle

The steam+vacuum nozzle is the perfect tool (combined with the squeegee) to clean windows, upholstery, kitchen...

200 mm squeegee insert

The rubber squeegee insert is designed to wash glass windows without leaving marks and halos.

Steam concentrator+small nylon brush

Can be used (with or without the round brush) to clean toilets and bathroom fixtures, cooking hobs, fridge but is also great to clean groutings between tiles.

Steam lance

Applied to the 120° concentrator, this accessory can reach into the most difficult corners.

Suction lance

To deep vacuum the most difficult corners: skirting-boards, upholstery's grooves, crevices etc.

Set of 3 colour-coded round brushes with nylon bristles

The different colours allow to differentiate their use according to the surface to be cleaned, thus ensuring the best hygiene.

Extension tubes

Extension tubes for steam and vacuum.

Flexible steam/suction hose

Flexible steam and suction hose, lightweight and flexible, handy and easy to use.

Jug
To quickly refill the boiler.

Cloth for all floors
Cloth to collect the melted dirt by steam from all types of floors.

Cloth for delicate floors
Cloth to collect the melted dirt by steam from delicate floors.

Sockette
To collect the dirt melted by steam.

Tank cleaning brush
